Alma Mater

Alma Mater, true and glorious,
Let thy flag of wisdom fly,
Billow forth thy pride victorious,
Dear old Franklin High;
We will vow our service to thee,
And our strength to reach thy goals.
We will honor and defend thee -
Franklin High School blue and gold.

- June Eckels 1955

Raise your hand, raise your hand if you're sure!

Now, if I can only get these answers off my hand.

Seniors are very funny people!

Has anyone seen my pencil?

Joe Cool serves again!

Wha- the library's on fire?

Boy am I glad they called time out

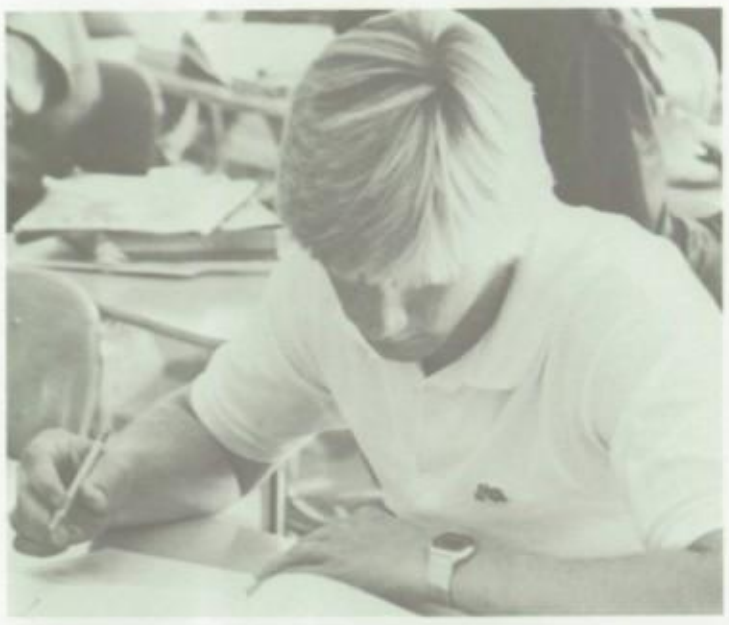
I should be a GQ man.

One of these girls is not like others . . .



Dentures slipping?

You ain't nothin but a hound dog, howling all the time . . .

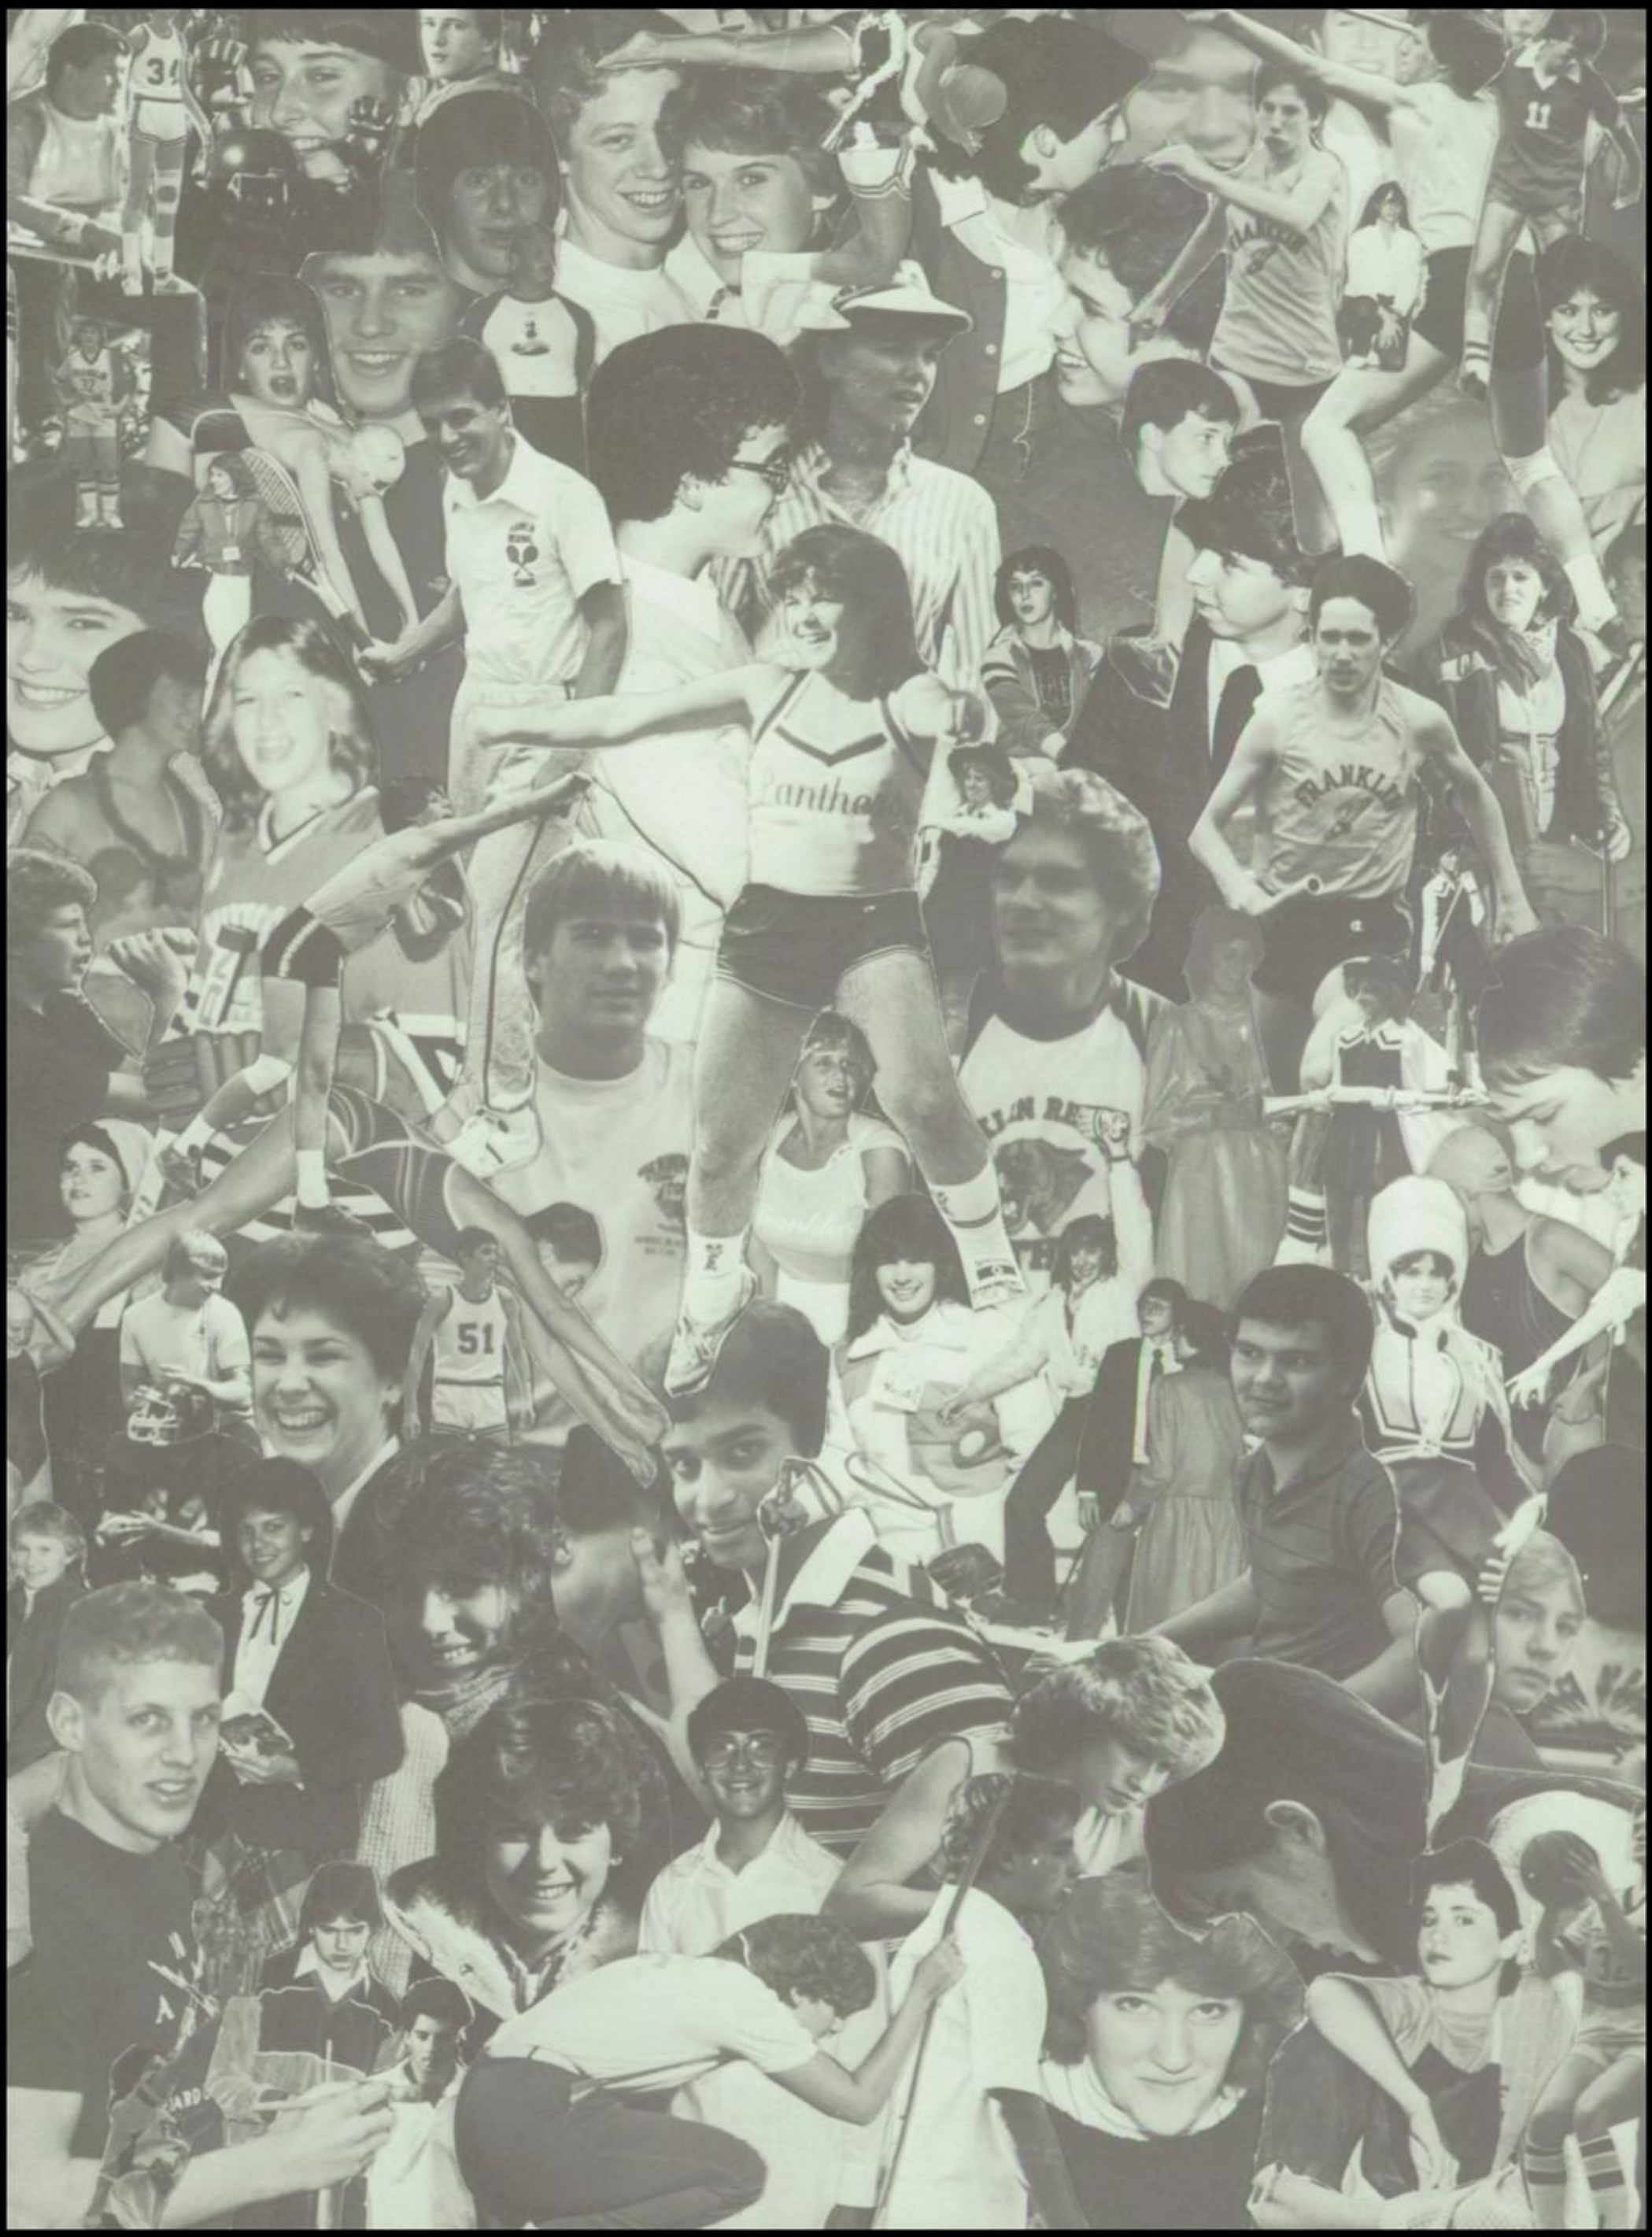
WE ARE



Sail on silver girl,

Sail on by.

Your time has come to shine.

All your dreams are on their way,

See how they shine.

If you need a friend,

I'm sailing right behind.

Like a bridge over troubled water,

I will ease your mind.

- Paul Simon & Art Garfunkle

Kodachrome

They give us the nice bright colors

They give us the greens of summers

Makes you think all the world's

a sunny day

I got a Nikon camera

I love to take a photograph

So mama don't take my Kodachrome away.

Paul Simon

Amazing they're doing with food these days!

The day after

My summer as an exchange student to Israel was the greatest nine weeks of my life. I lived on the West Bank in the small settlement of ARIEL. It was very exciting to watch the new state of Israel build and grow. Contrary to what I'd heard and imagined, Isreal was very civilized and modern. The historical and biblical landmarks were breathtakingly beautiful, as well as educational.

I worked as a camp counselor with my host brother. The seven year olds that I chaperoned taught me loads of Hebrew. In exchange, I taught them English and the art of making chocolate chip cookies.

Through the wonderful people I met, the places I visited, and the different culture I grew to love, AFS broadened my knowledge and my life. I'd do it again in a minute.

Living in Murrysville and being able to attend Franklin Regional has been one of the greatest experiences of my life. During my stay I have noticed many differences between the U.S.A. and Colombia. These differences include the schools, the sports, and the people all of which made my stay in Murrysville a special time of my life.

This was the first time that I was able to choose the class schedule which I wanted and to study new subjects such as Industrial Arts or American Government.

I'll always rememeber my birthday at Franklin with the decoration on my locker and the surprise parties. I also enjoyed playing on the basketball team.

I will not forget that it was here in Murrysville where I got my first broken bone. For each one of these things which have made this a special year I would like to thank both AFS and Franklin Regional.

This year has been a really great experience. I discovered a new family, new friends, a new school, a different country, a different language and a new way of life!

I've been surprised in Franklin, by the relation between students and teachers, and the relaxed way you approach your studies. You don't have the stress and the pressure that we have at school in France.

I really met alot of different people in the USA, and even if we don't have the same background, we can still have the same tastes and be friends. I'm the youngest in a family of four in France and here I found a family with three little sisters. It's really different and interesting.

France is famous for its food, but I've gained 10 pounds since I've been here, because I love chili, hamburgers, and french fries.

I want to thank all the teachers who have been patient with me. (I talk alot!) and all the students, and a special "Hi" to Mr. Lasher and the first period Art class.

In truth, I would like to find the greatest words to express what this year at Franklin has meant to me. It's difficult to explain what feeling I had coming here into a new and foreign country, a different school and meeting other people. I guess I was afraid. But if I had known what Franklin was like, I wouldn't have been afraid. Now I can say that I have been able to live the most exciting and unforgettable experience of my life. For the first time, I could learn what I always wished, English, and in the way I wanted it.

Here at Franklin everyone is so friendly. Now I really feel like I'm part of you. And as far as my two families are concerened, I certainly consider them as some of the most special people in the world.

I also would like to take this opportunity to express all my gratitude to Rotary International who has let me share such a great experience, as well as AFS. Truthfully, I can say that it's going to be very hard to say good-bye. But I'm really looking forward to revisiting the United States.
